GUARDIAN™ Pressure Vent

Guard your product. Guard your drivers.  
Guard your business.

800.831.7160

Do what's best.

## THE BETTS GUARDIAN™ 407/412 SERIES

A trusted guardian is proactive, always looking ahead and ready to ward off potential hazards and protect at all times. That's the idea behind the GUARDIAN™ 407/412 Vent Series by Betts.

The Betts GUARDIAN 407/412 series completes the DEFENDER Package with a 21st-century vent solution designed, engineered and manufactured exclusively by Betts for the rigors of today's transport.

### Model Options

Vacuum, pressure or combination  
3" and 4" sizes  
Flanged, threaded or swivel  
25, 30, 35 psi

## YOU ASKED FOR IT. WE DELIVERED.

We set out to do far more than live up to a decades-old standard of a pressure and vacuum vent. Rather, we put our best minds to work—to do what's best. After exhaustive research, design, engineering and manufacturing validation, we're proud to offer Betts' GUARDIAN 407/412 series of vents—firmly placing vent performance in the 21st century—meeting existing 407/412 requirements and even potential future ASME standards.

- Simple to maintain and service
- Meets 407/412 and future potential ASME standards
- Optimized efficiency for reduced chatter, wear and potential for sticking
- Modern, 21st-century design, exclusively by Betts
- Completes the DEFENDER™ Package 407 and 412—the total Betts solution
- Designed, engineered and manufactured in the USA
